Turun Kirjekuoritehdas Oy (Turku Envelope Factory Ltd) has manufactured quality envelopes since 1874. Today, we are Finland's second largest envelope manufacturer and a significant paper wholesaler.

Among our strengths are speed, versatility, effectiveness, the punctuality of our deliveries, flexibility, our know-how and independent position.

Turun Kirjekuoritehdas Oy received an ISO 9001 -quality certificate and an ISO 14001 -environmental certificate as the first Finnish company in its business area. Now we also have received a FSC -certificate! We care about the environment and we also offer products, which carry the Nordic Swan -label or the FSC -label.

Turun Kirjekuoritehdas is a part of the Intermail Group. The entire group's capacity exceeds 2 billion envelopes.

ENVELOPES FOR EVERY NEED!

Overprinted envelopes are the fastest and most cost-effective way to produce between 1,000-100,000 envelopes. We stock hundreds of envelopes in various sizes ranging from small pharmacy bags to B4 size envelopes, and even bigger. We even stock square-shaped envelopes. Many alternative papers are also available. Printing is possible in 1, 2, 3 or 4 colours.

Our stock selection of envelopes is presented in this brochure.

Customised envelopes are useful when ordering large quantities, or when you need a more personal type of envelope. When the envelope is customised from the start, you can choose from different effects: special window-sizes, unusual envelope-size, printing over the whole envelope and/or on the inside, etc...

The paper used for the envelope can also be selected to suit the message. There is an almost endless number of options to use, in total almost 100 million!

You will find instructions for overprinting and preparing the material for envelopes at our homepage, www.turunkirjekuoritehdas.fi

STANDARD ENVELOPES STRAIGHT FROM THE WAREHOUSE

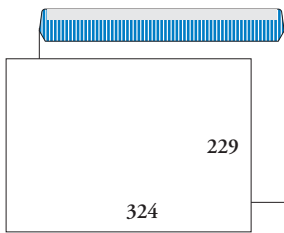

Scale 1:10

STRIPEY ENVELOPES

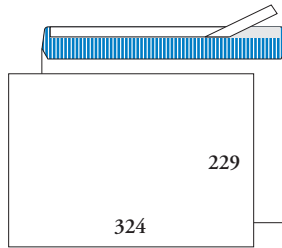

The classic blue stripe has for decades been the guarantee of quality envelopes manufactured by Turun Kirjekuoritehdas. Today the stripe is also recognised abroad, sometimes thousands of miles away. The stripey envelopes are marked with a blue PMS 300 stripe, printed inside.

PRIMUS-ENVELOPES

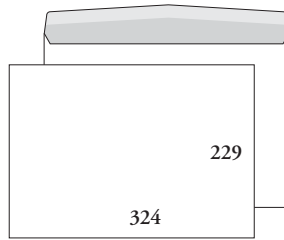

The Primus series of envelopes is stylish and modern. Primus envelopes received their quality marking from the paper used, which is thicker than normal paper. For instance, the C5 envelopes are manufactured from UPM's Letter 90 g paper. The inside printing of these envelopes is compact and stylishly grey, in PMS 428.

WHITE ENVELOPES

Crisp white envelopes without inside print are a good choice when simplified stylishness is the target. They are used for instance in invitations, messages of sympathy and as elements in DM-campaigns.

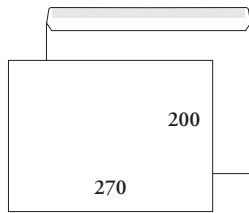

Our selection offers a wide range of sizes and shapes.

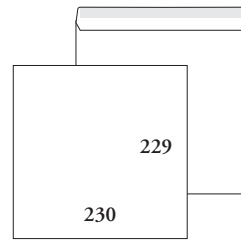

NON-STANDARD SIZES

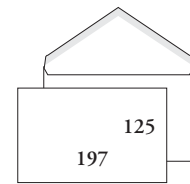

120800 222 x 315A

NATURA-ENVIRONMENTAL ENVELOPES

The FSC-labelled natural white NATURA-envelopes are the environmentally conscious customers choice. These envelopes are a good option for the traditional white envelopes. The inside print is compact grey.

DIGI-ENVELOPES

DIGI-Envelopes are designed for digital printing. The window-foil withstands a temperature of 150°C degrees, which eliminates problems connected to “normal” window-foil. The inside print is grey PMS 428.

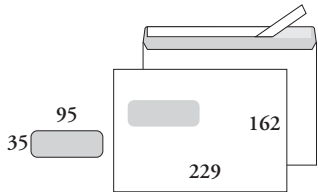

DIGI-ENVELOPES

strip-seal flap on long edge, compact grey inside print, 90 g offset

SPECIAL ENVELOPES

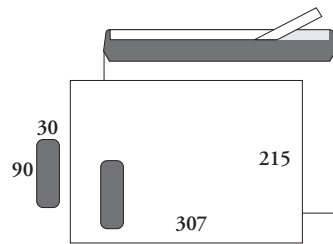

If the intended use calls for an unusual or more personalised kind of an envelope, the safety envelopes stocked by our warehouse may be ideal. The differently sized small pharmacy and goldsmith's pockets are sometimes ordered instead of plastic bags to wrap buttons, for instance, or to draw attention to direct marketing campaigns.

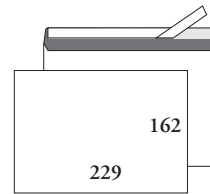

SECURITY ENVELOPES

DESIGN ENVELOPES

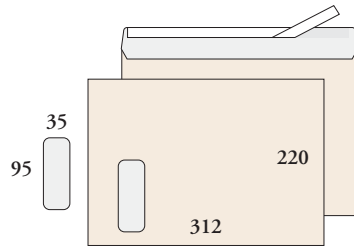

FSC-certified Munken Lynx, Pure or Polar-paper is the choice of many companies. The use of a design-paper strengthens the corporate identity and affects the identity of a company. Our selection of Munken-papers is supported by a vast selection of stock envelopes. Now you can keep the same corporate impression starting from letterheads and ending in envelopes.

ALL SERVICE AT ONE ADDRESS

www.turunkirjekuoritehdas.fi

DUMMY SERVICE

Through this service, you can order dummies, sample sheets or envelopes. This helps you plan your print jobs. The dummy shows you how the selected print material feels. You can also compare differently sized and shaped envelopes and sheets.

ENVELOPE DATABASE

Our envelope database will help your planning:

- you find a list our different envelope-sizes
- you can download the different sizes for use on your computer
- all envelopes are marked according to size: height x width mm
- the envelopes/envelope blanks are marked in black, the available printing area is outlined in red.
- the working sheets can be found as FreeHand and Adobe pdf-files.

Sk anPack

-mailing packages for different needs!
